Korean Journal of Medical Mycology

Vol. 21 No. 1 March 2016

Korean Journal of Medical Mycology is the official journal of the Korean Society for Medical Mycology and the Korean Society for Cutaneous Mycology. Abbreviated title is 'Korean J Med Mycol', which focuses on studies and reports of all aspects of medical mycology to provide a comprehensive scientific base for medical mycologists, microbiologists, and clinicians. It was launched in 1996. It publishes invited reviews, original articles, case reports, letter to the editor.

Korean Journal of Medical Mycology, which is issued quarterly, in March, June, September and December each year, published in Korean together with English.

All of the Manuscripts are peer-reviewed.
Korean Journal of Medical Mycology is indexed in web sites of KoreaMed and Google Scholar. Manuscript should be submitted via the online website (http://neoses-ksmm.isway.co.kr).

Subscription Information
Korean Journal of Medical Mycology is also sent for free to all members, medical schools, libraries, and other relevant institutions over the world. The full texts of manuscripts are available at the web site (http://www.ksmm.org) of the association.
